AS-BUILT CERTIFICATION:

I (We) certify that the As-Built plans met the requirements of NRCS MD-Standard for pond 378 and are true and accurate and within acceptable deviation tolerances. These determinations have been based upon on-site observation of construction, scheduled and conducted by me or by a project representative under my direct supervision. Any minor differences between the As-Built plans and the approved construction plans are considered to have a negligible effect on the safety of the dam including hydraulic performance or the minimum freeboard criteria.
